

Walkie Talkie App Team Communication For Project Managers & Crew

Voxer Business For Construction

WHY VOXER

Voice is **3X faster than text**

Talk hands free across departments

No missed Information - recorded messages ensure that important communication is never lost.

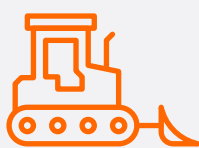

VOXER USE CASES

Avoid lost messages in dead zones - with traditional PTT dropped/missed messages are expected

Talk hands free with walkie talkie mode and avoid safety concerns altogether

Can't hear over the bulldozer? All messages are saved and can be listened to later

Optimize efficiency and never play that game of telephone again - replay audio directions over and over again, so your team can keep moving and stay in sync

Work with teams in different times zones and work schedules - relay live voice whether the messages are heard instantly or saved to listen to later. Even if your team is "off duty" - know that they will receive the memo

Be positive that your team is on task - send photos and videos on how the project is developing

Voxer Business & Enterprise

For Better Business Communication

Turn your mobile device into a walkie talkie
